the other guys

What is it? What does it do?

- Next generation SEG system
- Design/Environment Friendly Extrusion System
- Full fabric wrap extrusion
- Message over metal

How does it work?

- Simple extrusion system with one major modification - An innovative channeled cap that allows the SEG graphic to wrap around the corner.
- SEG Fabric graphics
- Wrapping full structure rather than just "picture frame"
- Easy graphic set-up
- Intuitive and easy

- Few types of extrusion allow for unlimited options
- No nuts and bolts means less missing pieces

What can it be used for?

- Trade Shows
- Creating spaces
- Retail
- Your imagination makes the possibilities endless

Accessories?

- Shelving
- Literature holder
- Panel clamp
- Door
- Lighting
- Monitor mounts
- Stabilizing feet
- Bases
- Adjuster feet
- Shipping crates

" Choose from existing exhibit components, combine to create unique exhibit spaces or add them to your existing exhibit. Since only the graphic is visible, Panoramic™ exhibit components go with any display. "

"Panoramic™ takes full advantage of SEG graphics"

A sleek & durable exhibit

Panoramic is a modular exhibit system that virtually disappears behind beautiful fabric graphics which fully cover its structure
